Tail Tips.

*Please be advised that although we do have our mobiles that you can ring for help on the ride mornings, most of the time the rides begin from areas which we have NO SERVICE in, please be aware of this.

*We also recommend breast plates and croppers be fitted to your saddle and horse, as most rides to have steep ascends and descends.

*Please also remember to carry water, snacks and your halter/lead with you on the ride.

*Sometimes the ride can be longer than our usual return at around 1pm, please do not expect to always be back at this time and be prepared with water and snacks.
